Summary

After years of teaching, I just completed an 11-month Software Engineering Bootcamp through Nucamp, developing skills in backend, frontend, and full-stack coding to develop a whole new set of skills in order to pursue a new career in coding.

I am a hardworking and passionate job seeker with strong organizational skills eager to secure an entry level Junior Developer position. I am ready to be a part of a team and support company goals.

Skills

HTML, CSS, & JavaScript, Python Fundamentals, SQL & Data Modeling, SDLC, DevOps, & CI/CD with Python, Bootstrap, React, React Native, Node Express & Mongo DB

Projects

React Native Project – Dog Food App

- An app to use in a fictional non-profit that acts as a food bank for dogs (based off a real one) to manage inventory, donors, and recipients.
- Created and adapted as a group project throughout full-stack bootcamp with two classmates.

Bootstrap Project – Portfolio Website

- a fully-designed display of my skills, projects, and certificates from my time attending Nucamp coding bootcamp

React Project – Plant Shop Website

- A website that would support a plant shop or nursery, building in a Shopping Cart feature

React Native Project – ADHD Daily Tasks app

- an app to support folks with ADHD to accomplish daily tasks based off how they are doing that day.
